SEWP is a multi-award Indefinite Delivery/Indefinite Quantity (IDIQ) Government Wide Acquisition Contract (GWAC) with a ceiling value of $20 billion per contract. It is administered by NASA but is available for use by all Federal Government agencies and their authorized subcontractors. The statutory authority allowing usage of the SEWP contracts by the entire Federal Government is NASA’s designation as an Executive Agent by OMB based on the Information Technology Management Reform Act (ITMRA) of 1996, now the Clinger Cohen Act. SEWP is a Firm Fixed priced Contract.

Scope of SEWP
Providing the latest in commercial Information Technology (IT) products, solutions, and services, the NASA SEWP contract vehicle has an outstanding track record of offering the latest technology solutions for the Federal Government. With the award of SEWP V, the scope has been expanded to include as-a-service offerings along with unlimited product engineering services. The SEWP contracts offer a vast selection and wide range of commercial advanced technology, including, desktops and servers, IT peripherals, network equipment, storage systems, security tools, software products, cloud based services, telecommunication, Health IT, video conferencing systems and other IT and Audio-Visual products along with product based services such as installation and maintenance.

Unisys is a global information technology company that builds high-performance, security-centric solutions for the most demanding businesses and governments. Unisys offerings include security software services; digital transformation and workplace services; industry applications and services; and innovative software operating environments for high-intensity enterprise computing. For more information on how Unisys builds better outcomes securely for its clients across the Government, Financial Service and Commercial markets.

### Features

- Unisys has over 25 years of experience supporting SEWP I, SEWP II, SEWP III, SEWP IV, and now SEWP V contracts
- Unisys has a dedicated SEWP Program Management Office (PMO) that ensures a highly responsive execution of the SEWP V contract
- IT products, services and solution can be added in one day. Orders are processed and Inquiries are responded to - all within 24 hours
- Low Price and Fee: Product prices, in general, are consistently lower on SEWP due to contractual set-up, oversight and intense internal competition. The 0.36% SEWP fee is the lowest of all GWAC contracts and is included in the contract price
- Economy Act Delivery orders issued against the SEWP contracts are not subject to the Economy Act

### Benefits

- Unisys is a global information technology company that works with many of the world’s largest companies and government organizations to solve their most pressing IT and business challenges by providing integrated, leading-edge solutions
- Unisys offerings include cloud and infrastructure services, security solutions, application services, and high-end server technology. Unisys Stealth® and CloudForte® available on SEWP
- Unisys offers industry-standard best practices and a robust set of solution capabilities to our clients, as well as the extensive resources and capabilities of our partner team members
- Free On-Site Training: Training can be delivered to any Government location at no cost! WebEx training and online training videos are also available
- Limited protest no protest on orders under $10 million Except on the grounds for out of scope requirements or ordering outside the contract period

### Ordering

The internal ordering process of each agency varies. The process and accompanying forms for PR’s and DO’s that are issued against a SEWP contract is defined by the issuing agency and not the NASA SEWP Program Management Office (PMO). The NASA SEWP Program Management Office (PMO) does not issue DO’s - these must be issued through the issuing Agency’s procurement office. The SEWP Program Management Office (PMO) reviews, processes and tracks issued DOs and forwards them to the Contract Holder(s).

- **Contract Numbers**: NNG15SC21B and NNG15SC52B
- **DUNS Number**: 150780674
- **Period of Performance**: May 1, 2015 through April 30, 2025
