Navy Seaport NxG is a multiple award, indefinite delivery, Indefinite Quantity (IDIQ) multiple award contract with a ceiling value of \$10 Billion that can be used to fulfill a wide range of Professional Support services that span the entire spectrum of mission areas and technical capabilities supported by the Department of the Navy (DON) ordering activities. The contract allows for multiple contract types (CPFF, CPAF, CPIF and FFP). This is a 10 year contract (5 year base and 5 year option) with 15 year performance period. The contract is currently only open to Department of Navy activities.

Supported Agencies

Only authorized Ordering Offices may place orders under SeaPort NxG. Currently only Navy Activities are authorized to place orders.

- Naval Sea Systems Command
- Naval Air Systems Command
- Space and Naval Warfare Systems Command
- Strategic Systems Programs
- Naval Supply Systems Command
- Military Sealift Command
- Naval Facilities Command
- Office of Naval Research
- United States Marine Corps

Features Benefits

- A \$10 billion dollar program ceiling and a five-year base period with one five-year option
- Allows for long-term planning of large-scale program requirements
- Zones no longer applicable
- No Contract Access Fee
- All contract types, e.g., fixed-price, cost-reimbursement, labor-hour and time-and-materials; offers flexibility of contract types for optimal risk mitigation

Performance and Approach

The Unisys Team understands the requirements and challenges of SeaPort NxG. Our proven technical, administrative, and quality processes will continue to deliver high-performance, low-risk and best-value solutions for Navy customers. The carefully selected Unisys SeaPort NxG Team is comprised of mix of large and small businesses.

Technical Approach

The Unisys Team’s comprehensive skills and processes—coupled with our industry ‘best practices’ and management expertise— minimize risks, promote quality solutions, and ensure customer satisfaction. The processes and disciplines successfully implemented on other Unisys IQIQs been more formally branded as part of a comprehensive Unisys process management tool. TEAMMethod, Unisys proven, flexible approach to information systems implementation is driven by the business needs of our clients capturing the most effective management techniques from our experience providing services and solutions for 50,000 clients.
