

## Taking the World of Mining to the World of the People

### The Business Challenge.

Maintain its position as a leading global mining company which uses its intelligence and expertise to develop better mining every day.

### The Solution.

Unisys Cloud and Infrastructure Services including design and implementation of a transformation roadmap and migration to a Microsoft Azure public cloud of the IT infrastructure that serves ~5000 employees across operations throughout Latin America as well as in the U.S. and Europe.

### Results and Benefits.

- Reduced costs ~30% by moving servers to the cloud
- Established an environment of operational excellence
- Achieved a flexible IT infrastructure to support business growth and market development

“Expected growth of our company required us to rethink the entire structure of IT. Unisys helped us design and implement our digital transformation strategy to leverage the most appropriate technology that maximizes our results.”

**José Antonio Furtado**  
Global CIO, NEXA
