

## Enabling Unsurpassed Member Services and Maximized Staff Productivity

### The Business Challenge.

Aggressively grow and expand into new markets, increase efficiency and productivity of operations, and deliver faster, more personalized service to members.

### The Solution.

ClearPath Forward® financial services server, ClearPath Forward advisory, automation, integration, and platform implementation services, FIS™ MISER core credit union application, as well as Dell EMC™ SAN for storage and Attachmate™ DATABridge.

### Results and Benefits.

- Exceptional processing speeds, flexibility and scalability
  - Intra-month cycle processing of 110,000+ statements in less than 90 minutes
  - End of day processing in 50 minutes including database backup
  - Single system elegantly supports and segregates multiple environments for DEV and TEST alleviating the need for extra hardware thus reducing overhead
- Increased efficiency and staff productivity by automating tasks to enable “lights out” processing

“In twelve years of processing we have not had a single security incident on this well designed platform.”

“The credit union could triple in size and I am confident that we would have processing power to spare.”

“This platform is the most recoverable and low maintenance data processing system I have ever been exposed to in my 25+ year career.”

**Brad Grant**  
**Vice President - Information Services**  
**Wings Financial Credit Union**
