

Delivering Secure Banking Services Throughout the ASEAN Region

The Business Challenge.

Gain market share in a very competitive market by providing fully integrated, always available financial services to customers across 200+ branches.

The Solution.

Unisys end-to-end check processing system implemented as an outsourced service; includes networks, infrastructure (servers, capture devices, etc.), security devices, software solutions, facilities, people and processes.

Results and Benefits.

- Enhanced service to customers through flexible input (paper and image), efficient and accurate check processing with compliant output (images and data)
- Gained 'two way' compliance - compliant to Central Bank clearing requirements/specifications and compliant to Client Bank requirements/specifications
- Reduced operating costs through business process outsourcing

"In our highly regulated industry, we need mission critical services to be delivered in a timely and compliant manner. Unisys has proven to be a trusted partner in providing predictable and consistent check processing services over a long period of time."
