

Improving Service Delivery to Digitally Enabled Banking Customers

The Business Challenge.

Provide a seamless banking experience for customers across the Greater China market.

The Solution.

Unisys ClearPath Forward® systems and services, Unisys China System Finance (CSF) core banking system designed specifically for Greater China's banking environments and Dell EMC Storage.

Results and Benefits.

- Improved competitive position due to faster time to market for developing and offering new digital banking services
- Achieved the ability to support business growth and minimize operational risk and costs associated with siloed back-office systems
- Increased security across integrated systems

“The flexibility and security of the Unisys ClearPath Forward environment supports FEIB’s ongoing digital transformation strategy to offer new and enhanced banking services to our customers so they can bank anytime, anywhere via internet and mobile channels.”

Lonnie Liu
Executive Vice President of
Far Eastern International Bank
