

## Embracing the Spirit of the Invictus Games with Excellence in Execution

### The Business Challenge.

Help the organizers of the Invictus Games Sydney 2018 deliver an event that inspires recovery, supports rehabilitation, and generates a wider understanding and respect for wounded, injured and sick service personnel, both active duty and veteran.

### The Solution.

Unisys Infrastructure Transformation Services, Security Services including risk assessment and recommendations, and Digital Workplace Services including service desk, onsite support and service delivery management to build and support the technology infrastructure at Victoria Barracks, Sydney Olympic Park and Games venues.

Unisys Stealth® with microsegmentation to proactively protect data across various public WiFi networks by restricting communication within the network to pre-authorized users and devices.

### Results and Benefits.

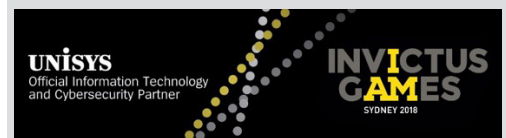

- Achieved a robust, secure infrastructure within three months through a holistic approach involving people, process and technology
- Minimized cybersecurity risks through technology and training, including a fake phishing attempt that proved the importance of being security-aware
- Safeguarded highly sensitive data associated with all 500+ active duty and veteran service personnel

“With proven experience providing IT support to defense and other critical organizations, Unisys was the ideal partner for Invictus Games Sydney 2018.”

**James Smith, Head of Technology,  
Invictus Games Sydney 2018**

“Unisys gave us massive acceleration to put in place the right strategies, equipment, and people who effectively ensured that we securely delivered the Games with confidence.”

**Patrick Kidd, CEO,  
Invictus Games Sydney 2018**
